Scrap Metal Is Sought In This Region

Local Clergyman Heads Drive For Salvaging Of Vital War Material.

Throw your scrap into the fight!

The War Production Board and the Truckee War Salvage Committee this week is inaugurating a scrap metal drive to procure vital materials for the war effort and everyone is urged to follow the simple rules outlined and get every available bit of scrap into production.

Last week the Truckee Lions Club dispatched through J. E. Lansberg of the Los Angeles Iron and Steel Company of Hobart Mills, 22½ tons of old scrap iron to the bay area. The war effort benefited and the proceeds went to the U. S. O.

Now the government is asking that we not only continue this effort with renewed vigor, but add many other items to the collection pile. Rev. G. J. E. Keetch, chairman of the local salvage committee, should be contacted if any doubt exists as to the kinds of materials required or the manner in which to dispose of them.

Scrap most vitally required are old iron and steel, old rubber, rags manila rope, burlap bags and all types of metals.

The exceptions in this area for scrap material are tin cans, old papers, glass and safety razor blades.

Cooking fats may be disposed on to local butchers. The fats used in cooking should be strained and placed in solid containers.

The rules for disposition of the scrap have been outlined as follows:

1.—Collect all your waste materials and pile it up.

2.—Send it to a junk dealer, give it to charity or take it yourself to the nearest collection point or get in touch with your local salvage committee. In this instance the collection point is at the Smith building on Bridge Street and the local committee chairman is Rev. Keetch who may be reached by telephoning 206.

You are urged to search your attic basement, garage, sheds and every place where old waste materials may be located. Don't overlook a single bit. It may not be of any value to you, but in this war business every ounce is valuable and must be secured if production is to continue.

R. Albee, Local Stockman, Succumbs to Long Illness

Ray E. Albee, 49, widely known local and Reno stockman and recent owner of the Truckee Meat Market, died in Reno yesterday following a long illness. He is survived by his wife, a son, Gordon, and daughter, Raylin. An older son died two years ago.

The Masonic lodge here, of which he was a member, was notified and may conduct the funeral services.

—V—

Lions Are Entertained by Bell Collector At Meeting

James F. Cooper, railway mail clerk, who enjoys a hobby of collecting bells, displayed a portion of his collection and gave an interesting talk at the meeting of the Truckee Lions Club last night. Timely and impressive was Cooper's explanation of the history of the famed Liberty Bell. As a unique ending for the program each member and guest was given a small turkey bell which he rang in the chorus of the song Jingle Bells.

Guests at the meeting included District Attorney Vernon Soll, Eben K. Smart, candidate for county assessor; Alvah Hooper, candidate for coroner, and Ralph Deeble, deputy county clerk, all of Grass Valley; Robert Bowers and Henry Hock of Truckee and J. E. Lansberg of Hobart Mills. Elden Tonini was program chairman and presided.

—V—

R. R. Henderson Visits In Congress Campaign

R. R. Henderson of Lone Pine, candidate for congress in this district, was in Truckee today canvassing the local voters in behalf of his campaign. He was accompanied by G. W. Dow, also of Lone Pine, who was on the liner Athena when it was torpedoed in the Atlantic and spent nine hours in the water before his rescue. Henderson is a lumber dealer in Inyo County.

Up from Lincoln—

Mr. and Mrs. E. E. Burnett of Lincoln were recent guests of Mr. and Mrs. F. A. Titus.

.:Sun:. Beams

by WALTER M. BARRETT

Newspapers throughout Northern California are high in their praise for the type of publicity issued by the Truckee chamber of commerce. This publicity gives accurate and complete weekly information on fishing, hunting and other recreational activitie in the area and is issued to newspapers, radios, sporting goods concerns and others wishing to take advantage of the service. It is a service which meets the requirements of everyone seeking information on outdoor recreation and the chamber of commerce fully deserves the praise which the bulletins bring.

This week Mr. and Mrs. Gene Barton who have operated to Sierra Grocery are leaving for southern California where Barton expects to enter the armed forces of the United States. The store has been taken over by Tonini's and the two store merged in the one building. We join in the community's best wishes to the Bartons in their new venture and to the Toninis in their new store.

County Treasurer Frank Steel this week resigned his position and is retiring. He has well earned his rest, having spent nearly 40 years in the service of his county and community and we join in extending our sincere best wishes with a word of thanks for the excellent work he has done.

Hearing Slated On Deer Season In North State

Defense Commander Asks Closure of Deer Season Pending Investigation.

The state fish and game commission has been called to meet in San Francisco August 7 at 2 p.m. to give all interested parties a chance to be heard before the closing of the deer hunting season in northern California north of Monterey is ordered formally, according to announcements by United Press.

Governor Olson yesterday set the machinery in motion to suspend the hunting season in compliance with a request from Lt. Gen. John L. DeWitt, western defense commander. At DeWitt's request the deer hunting season was suspended as a defense measure five days after it opened in the state south of Monterey.

DeWitt asked the closure "pending receipt from me of specific areas now being determined by forestry services."

Olson explained federal and state foresters were cooperating in a survey of the military needs of various areas and if conditions warrant, deer hunting may be permitted in sections where there would be no interference wiil military or defense needs. It was not made clear whether or not this latter would include this section of the state, although we are out of the combat zone.

DeWitt explained that the northern closure would afford the same protection to "northern California forests and grazing areas as has been given to southern California and essential as a military measure."

August Rubber Quota Assigned to Township

The Meadow Lake War Price and Rationing Board has received its tire quota for the month of August. It provides for one passenger tire, 7 retreads and five tubes; five truck tires, six retreads and six tubes. Three bicycles may be allocated to those having the desired priority.

In the county the quota was for 1 new passenger car tires, 123 retreads and 91 tubes; 48 truck tires, 64 retreads and 54 tubes.

Last month's quota was completely consumed by vehicles garaged in the township which held preference ratings. A number of applications, for which priorities were lacking, were rejected or filed.

—V—

Charles Foster Takes Over Stables At Donner Resort

Charles Foster has purchased the stables at Donner Lake Resort and is advertising gentle saddle horses for rent or sale. The selection of horses is reported to be excellent and a number of local people are enjoying the pastime of riding the interesting trails in the district.

Six Truckee-Tahoe Men Enter Navy During Half Month

Local Communities Give Half Dozen to Navy Since Middle of July.

Twenty-nine Californians, including six from the Truckee-Tahoe region, have been accepted for service in the United States Navy at the Reno recruiting station since July 15. Those from this area are Lloyd Lytle Higbee, James Blake Goss and Earl F. Ballard, of Lake Tahoe; and James Ben Wilson, Richard H. Smith and Alfred I. Swanson, of Truckee.

The Reno station has a personnel of 18, including a complete medical staff for the rendering of physical examinations, examiners for the granting of ratings, and commission officers for the administering of oaths. Recruits are now sent directly from Reno to the various naval training stations.

Lieut. George O. Hackett, officer in charge of recruiting in Nevada, has issued a call for men experienced in radio, television and sound engineering for enrollment in the Navy Radio Technicians School. A college level course in radio, sound engineering and ultra-high frequencies is offered free of cost. Students are paid from $54 to $96 a month, plus clothing, food, housing and allowances for dependents. Men 17 to 50 years of age eligible. The course is of eight months duration. Graduates are given ratings as Radio Technicians, first second and third class, in the Naval Reserve. Those failing to make satisfactory grades receive appointments as seamen, first and second class and are given an opportunity for further training. High school graduates are preferred, according to Hackett, as applicants must be able to pass a qualifying examination in arithmetic, algebra, plane geometry plane trigonometry, physics and radio theory. Lieut. Hackett will send informative literature to men who are interested in the course.

Utility Valuations Reach All-Time High this Year

Value of property owned by California public utility companies reached an all-time high in 1942, it was announnced today by the state board of equalization.

R. E. Collins, third district board member, explained that the total assessment of such holdings amounted to $1,095,181,660, an increase of nearly $60,000,000 or 5.79 per cent over 1941. The current total included tangible property amounting to $1,006,632,950 and intangible propetry, $88,548,710.

Board records revealed that in Nevada county the public utility property was assessed as follows: intangible, $3,070; tangible, $8,110,460. The total of tangible property represented an increase of .27 per cent or $19,400 as compared to 1941.

Forest Service Seeks Mule Missing From Pasture

District Ranger H. I. Snider and part of his force of patrolmen were looking for a white mule branded "U.S." the past week end, after the animal escaped from his pasture through a break in the fence that was caused by a deer getting tangled in the wire. Patrolman Joe Talbot attempted to catch the mule outside the fence but he seemed scared after his nocturnal experience with the deer and ran into the timber where Talbot lost his track. He escaped from the pasture nine miles from Truckee along the Truckee-Brockway road and so far has not ventured into any other pasture or range where other stock are grazing but it is hoped anyone seeing him will report his whereabouts to the Forest Service at Truckee.

—V—

Back from Tour—

Mr. and Mrs. Thos. Quinton, the former a retired S. P. engineer, have just returned to Roseville following a two-year tour of the United States covering 17,000 miles. The Quintons formerly resided in Truckee.

Politically Speaking

ENGLEBRIGHT HARD TO DEFEAT, SAYS NEUTRAL POLITICAL EXPERT

by JOHN W. DUNLAP
(United Press Staff Correspondent)

SACRAMENTO, Aug. 6 —(U.P.)— Less than a month remains before the August primary and it is very evident that no one is getting very excited.

Most of the contests are pretty well cut and dried and the real competition will come in November. Chief of these will put Republican Earl Warren and Democratic Incumbent Culbert Olson for the governorship.

But there are certain district contests where the fur will fly for the nominations, particularly for congress. By and large, the incumbent will always go back into office, such as the 18 out of 20 vitories of office holders two years ago (Congressman Frank Havenner of San Francisco was the only incumbent to lose out.)

The approach of war and the voting records of certain isolationists has put a different tinge on some congressional races, however. And one of the major battles is taking place in a district which ordinarily wouldn't even scare up an opponent for veteran Harry Englebright of Nevada City.

Republican Englebright has worked up to the post of Republican whip and is a potent power in Washington. He has nine terms behind him and was considered unbeatable because no one could effectually stump against him in a sprawling district covering one-third of the state—the counties of Siskiyou, Modoc, Trinity, Shasta, Lassen, Tehama, Plumas, Sierra, Nevada, El Dorado, Amador, Inyo, Calaveras, Alpine, Tuolumne, Mariposa and Mono.

Such a district covers 51,850 square miles, bigger than New York state or Pennsylvania. The district has 218,000 residents but they are well-scattered from the Oregon line down the rugged Sierra to Los Angeles county. Any incumbent would have a tremendous advantage because his name would be well known. Year after year he has had no opposition.

But Republican Englebright has reason to worry in 1942. Three candidates came out against him, none of them lightweights.

One was Frank G. Finnegan, a lawyer from Englebright's home town of Nevada City. He filed on both major party tickets.

Then there was Mrs. Gertrude V. Clark of Sutter Creek, prominent club woman and seasoned campaigner. She confined herself to the Democratic ticket.

Perhaps the most formidable of all was R. R. Henderson, 39-year-old lumber operator from Lone Pine, the Inyo county hamlet not far from the Japanese internment center at Manzanar. Henderson filed on both major tickets and set out to really cover the district. His lumber truck drivers and yard men volunteered to help write campaign letters. Henderson gambled on getting a $10,000 a year job while losing $6,000 of his own money and a $13,000 per year income from his lumber business.

Englebright will be tough to beat, despite the fact he voted against many of the administration5s pre-war preparation measures prior to Pearl Harbor. He has been taking care of his district on a multitude of issues and has well-grounded support in every county. His three opponents may split the Democratic vote sufficiently for him to capture it as well as his own Republican bid. He also has filed on the Townsend ticket, but under California law, must win his own party nomination to be eligible for the November finals.

Englebright's prominence has brought national attention to this contest of the sagebrush and mining camps. Even TIME magazine gave it a spread. It should be a lulu.

—V—

Elma Hecker New County Treasurer After Steel Quits

Deputy for 17 Years Is Named by Supervisors to Replace Ailing Chief.

The Nevada County Board of Supervisors this week appointed Miss Elma Hecker to succeed Frank Steel as county treasurer and tax collector.

Steel, who has held the position since 1922, submitted his resignation to the board last Saturday, giving ill health as the reason for resigning. He had been unable to work for the past several months and Miss Hecker, his deputy, has been in charge of the detail work of the important office.

Miss Hecker several weeks ago filed her papers to become a candidate for the office after Steel declined to run again. She has been in the office 17 years. Other candidates for office to be decided at the approaching elections are James Henwood, Joseph Henwood and Joseph Martin, all of Grass Valley.

The resignation of Steel ends 35 years of county service. He became a deputy under the late George Coughlin in 1907 and was appointed treasurer and tax collector fhen William T. Garland resigned to accept employment in Grass Valley in 1922.

Fire Department Called in Minor Blaze At Hostelry

The fire deparment was called out at an early hour Saturday morning when a chair cushion in the lobby of the Sierra Tavern ignited presumably from a craelessly parked cigarette or match. No damage was caused aside from the cushion which was tossed into the street.

—V—

Boost In Garbage Rates Is Announced by Armati

Andera Armati, Truckee garbage collector, announced this week that effective August 1, the rates for hauling garbage from family homes would be increased 25 cents a month. This will mean that the charge for this service will now be 75 cents instead of the 50 cents previously charged.

The action has been approved by the Sanitary Board.

Business Trip—

Mrs. D. Cabona was a business visitor in San Francisco this week.

Local Markets Are Merged As Tonini Buys Sierra Grocery

Barton Plans to Enter U. S. Air Forces As Deal Is Closed In Week.

In an important business transfer this week, Mrs. Annie Tonini and Elden Tonini, owners and operators of Tonini's Grocery, became the owners of the Sierra Grocery, formerly operated by G. A. Barton and have consolidated the two in the building occupied by the Sierra Grocery.

The former Tonini Grocery has been closed and the stock and equipment moved into the more spacious and modern quarters.

Barton, with Mrs. Barton and family, are leaving for southern California where Barton plans to enter the U. S. Air Forces. Mrs. Barton and the children will reside in Los Angeles. The latter's brother, Jesse Graham, who has been associated in the Sierra Grocery, has been engaged by the Toninis and will continue to work there.

Doyle McGwinn, who operates the meat market in conjunction with the Sierra, also will continue in that capacity.

"It is our desire to extend our service to meet every needed requirement in the grocery, vegetable, fruit and meat line," Tonini said in announcing the consolidation of the two popular establishments. "We invite our old customers and the former customers of the Sierra to make this their headquarters for market shopping."

Mrs. Clark Visits Voters In Race for Congress

Mrs. Gertrude V. Clark, Democratic candidate for Congress in this district, was a Truckee visitor last night in the interests of her candidacy. Mrs. Clark was accompanied by her husband, B. C. Clark, Amador county mining man. While in the region, the Clarks stopped at the family's summer home at Homewood, Lake Tahoe, where her father, the late Senator E. C. Voorhies, was active in the development of the lake region.

Mrs. Clark is a gold star mother, having lost her only son in action on the Atlantic, and carries the endorsement of the state federation of labor.

EDITORIAL

STREAMS—NOT SPRAYS

If there is one thing the people of this country have thoroughly learned about their civilian duties, it is this:

If an incendiary bomb hits a home, attack it with a spray—not a stream—of water.

Every movie house has shown a film teaching that lesson. Leading magazines have repeatedly emphasized it. The radio has blasted forth about it on innumerable occasions. Defense councils throughout the nation have distributed pamphlets and posters to every home to make sure that everyone knows that lesson.

And now, after spreading that rule to every middlesex, village and farm, the Office of Civilian Defense has suddenly reversed itself and ordered: **Use a stream, not a spray.**

Under the circumstances, all we can do is hope that the OCD is right this time, blindly make a mental revision in the lesson we have learned so well, and, if incendiary bombs do come, trust that a stream of water will save more lives and more property than the much-tooted spray would have done.

THAT SECOND FRONT

The cry for a second front is heard on all sides.

The rocking chair brigade, the pullman car philosophers, and the street-corner orators are getting louder and louder in their demands for it, both in this country and England.

It is obvious that a second front would ease the Russian situation. But it would be a calamity if we opened a second front before we are fairly certain that our invasion would be victorious. Defeat, in a second front attempt might be more disastrous than no second front at all.

Most of us have no way of knowing how well we are equipped for a second front effort.

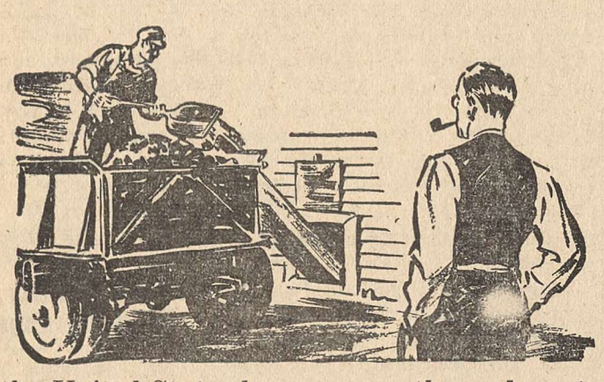
Let us hope that the forces of the United Nations have reached a stage where a successful second front can be opened. But let us leave the decision in the hands of the men who know the facts.

Canine Aircraft Observer ....

Tarzan, a Doberman Pinscher, is putting his ears to work for the Aircraft Warning Service. The pet of Dr. E. B. Alexander of Los Angeles, Tarzan has been trained to point planes, and serves with his master when the physician is on observation post duty.

The animal's sense of hearing is so highly developed that he starts pointing and whining two or three minutes before a human being can hear a plane. He continues to point a plane until it is in the closest position for reporting, when he starts barking and continues to bark until his master makes the flash report.

NO SHORTAGE BUT ..



We in the United States have a more than adequate supply of coal but the demands on our transportation systems are growing and your government requests that you order next winter's supply now to free the transportation facilities for the war effort

BURLINGTON TRAILWAYS

MY PLACE IN THE SUN

by DOUG BARRETT

Well, folks, here I am back again, but this time my days are really numbered. Ever since Wednesday of last week I've been Private Walter D. Barrett No. 39392971 of the U. S. Army. The Army wasn't in any hurry though and granted me a two-weeks furlough. It had been my intention to discontinue My Place for the duration but so many of my friends have urged otherwise that I have decided to take up a new angle. I hope to secure the addresses of as many Truckee-Tahoe service men as possible and conduct a column for the boys in the armed forces. Also, I hope I can keep up a local line from correspondence from home. Next week this column will be written here but from then on, Heaven only knows.

NOTE OF IRONY: The Induction Center in Sacramento is located in the Buddhist gymnasium in Sacramento and the flag pole in front is dedicated to the memory of two dead Japs.

Before I go, I'd like to say just a few final words in behalf of Congressman Harry L. Englebright who is undergoing the most thorough mud slinging attack I have ever read about in political annals. I will try to take up the charges one by one and answer them the best I know how:

ISOLATION: On vital intervention measures pre-Pearl Harbor he had three "good" votes as opposed to Ham Fish's none out of the test seven. And ask yourself, would you have voted for war on Dec. 6? Dr. Gallup says not.

REACTIONARY: His support of the Central Valleys project has brought straight-out endorsement by the liberal Sacramento Bee. He is a strong supporter of National Forests and increasing public domain, supported the anti-lynch bill and has a progressive record on agricultural questions.

USE OF FRANK: The charge has been made that he abuses his Congressional postal frank to send out campaign material. I imagine I have seen as many of his releases as anyone in the district and I have yet to see a single envelope from him bearing anything but the official three or six cent postal stamp of the U. S. Post Office Dept.

X-RATION CARD: While he holds such a card, he returned to his district last week by train. I don't see any of his opponents confining themselves to three gallons of gas per week and one has personally stated he has 25,000 miles left in his tires and he intends to use them all campaigning.

TOO BIG FOR DISTRICT: Although Harry has attained considerable influence in Congress, he has never been too busy to write a courteous reply to inquiries and letters from his constituents. He even took time to introduce and successfully pass a bill clearing the title of a local fraternal order to a certain piece of property in Truckee.

To Melva and Art Leitch on their anniversary last Saturday, my very best good wishes for twice as many more happy years for two of the finest folks I know.

STREET SEENS: Rose Petroni giving Roy Waters a Sunday punch.... half the able-bodied mtn in town helping Elden Tonini move his grocery stock down the block....Harold Laity busy with two false ambulance calls in one day....the forest service and fire department stampinng out a grass fire in front of McKelvey's ....Lowell Barton fussing with the empty cash register at the bowling alley....up at Kings Beach Thursday night last saw Russ Farley, Sheriff Dewey Johnson of Sierra County and friends heading for sage hen in Nevada....and Milton Shontz taking care of more than his quota of women.... what has he got???

ONLY ONE STOP
It's The Law!

to save precious rubber for the war effort, the director of Defense Transportation issued a general order to service industries which says:

1.—We cannot make more than one stop at each customer's residence in any one day. This means to pick up your laundry, your bundle must be ready and available when we call. To deliver your laundry, we must make collections at the time of delivery. If these rules are not complied with, we must postpone delivery or pickup until the next day
2.—We cannot give any special delivery service. This means any requests, other than our regular delivery service, cannot be granted.
3.—We must reduce our truck mileage 25 per cent each month below what it was the same month last year. This means we must re-schedule our delivery service in each territory.

This is a government order, we must comply with it

The inconvenience caused by this order will mean a sacrifice to both of us. But we feel that it is a small sacrifice, because it will enable us continue to serve you and at the same time help our nation in its effort to win the war.

Tahoe Socialites

by SWANEE

Mr. and Mrs. Leon Ellis and A Terry returned on Saturday to their Dixie Valley home in Nevada after visiting for several days at the home of Mr. and Mrs. James Wilson of Tahoe Cedars.

Mrs. Anna Murdock of Olympia Wash., and son Frank will visit for two weeks with her daughter, Mrs Eddie Martinez,, and family of Cedar Flat.

Mrs. George Martin and Mrs. Milton Dority of Carson City, mother and aunt respectively of Stanley Martin, were recent visitors for several days at the Martin home in Tahoe.

The Misses Pat Henry and Helen Towne spent the week end at the Towne home in Piedmont. They took down the trailer and planned to bring back Miss Towne's horse with them the first of the week.

Irene Bell, former Tahoe resident, is now supervising a restaurant in Richmond, where she frequently encounters other Tahoeites engaged in the shipyards of that region.

Mrs. Barney Morrow and daughter Lois Reeves, are back at Tahoe to make their home in the old Bickford house in town. Her husband, former petty officer at Alameda, has been promoted to warrant officer. He was former school cusodian at the Tahoe Lake School.

Mr. and Mrs. Clifford Jones and son are visiting at the home of Mrs. Jones' parents, the D. M. Brodehls of Tahoe City, for the weekend.

Mrs. Elizabeth Walker, confined to Merritt Hospital in Oakland with a broken hip, is reported "continuing to improve."

4-H YOUTHS AT CAMP AT LAKE TAHOE; PLACE STRESS ON WAR FARM PROBLEMS

RENO, Aug. 6— The 19th annual Nevada 4-H Club camp opened this week at Lake Tahoe. The work and play of the session will emphasize training in wnartime skills on the farm.

Thomas Bucknam, acting director of the University of Nevada Agricultural Extension Service, again is the director of the camp and is planning for special instructions in several wartime practices. Because of the war, the enrolment is smaller than for several years.

Mrs. Lura Dozier, county 4-H advisor in Lassen and Modoc counties of California, was in charge of a bi-county summer camp held at Tahoe from Monday through Saturday of last week. She was aided by Alton Young, assistant farm advisor. One hundred and ten young agriculturalists were in attedance.

V

Judge Bliss Warns Against Picking of Wild Flowers

TAHOE CITY, Aug. 6— Justice of the Peace Evelyn Bliss of Tahoe City this week issues the warning to local residents and vacationists alike that the picking of wild flowers or shrubbery will not be tolerated in these parts. A citation for wild flower picking was brought into her court last week, the offense having taken place on state grounds near the Tahoe Fish Hatchery. Mrs. Bliss admonished the defendants and reserved judgement and fine, but warns henceforth violators will be subject to both.

The law forbids the sale or picking of any wild flower, tree or shrub from public land or from private land without the owner's consent. The offense carries a fine of $200 or six months in jail or both.

V

The fire truck from Tahoe Public Camp grounds was called out on a false alarm on Sunday when a call was sent in from Worden's Camp.

Tahoe Kwikies

Little Stanley Martin, Jr., did not start school this term with the other children, as he is resting at his home preparatory to undergoing a tonsillectomy operation the middle of the week. He has been ailing for some time due to bad tonsils.

Mr. and Mrs. Rudolf Zimmerman and daughter, Ruth, have returned to San Francisco for a brief stay.

Mrs. Floyd Carnell has left Tahoe to settle in Albany for the winter. Her husband is employed at a shipbuilding plant in Richmond. Dick Carnell will remain at Tahoe where he is working until September, when he will join his family below.

Another deer was killed on the highway near Emerald Bay one night last week, the discovery being made by Fred Setley on the Tahoe Fish Hatchery who reported it to Game Warden Bill LaMarr.

Constable and Mrs. Harry Johanson of Tahoe Park, while out horseback riding last week, met up with a large bear ambling through the woods. He hurried off and left them gaping after him. They report many bear tracks in unfrequented paths of the forest.

Also reported as steadily improving is Tim Butler, manager of the Tavern Casino. Tim is still confined to bed for a good rest, but is gaining strength rapidly. It is hoped he will soon be back to greet his many friends as usual.

Pete Vanni of Tahoe City continues to work at Carl Bechdolt, Jr.'s, service station despite the opening of fall semester. He plans to attend school this September in South San Francisco where his mother and brother Carlo now live. Carlo is employed at the Bethlehem Steel Works.

Mrs. Anne Anderson, Tahoe librarian, reports this week the receipt of four large cases of new books from the county, the lot containing both fiction and biographies. Miss Margaret Luhrs is assisting her in the library during the absence of Pat Henry. Donors of magazines this week include Mrs. John B. Metcalf and Mrs. H. T. Harper of Rubicon Point.

Watchers are still needed on the observation post in Tahoe City, any one wishing to volunteer their services please get in touch with C. W. Vernon at Tahoe City 62 or 88 and leave their names. Transportation will be provided those requiring it.

Red Cross sewers and knitters are urged to attend meetings o Tuesday afternoons in the Tahoe community center hall where work may be obtained from the sewing chairman, Mrs. A. A. Snyder, to take home. Contact Mrs. Evelyn Bliss at Tahoe City 77 for information or sewing.

Due to a decline in traffic, the Tahoe Public Camp did not hold their bonfire as planned last Friday night, as too few campers were on the grounds. Should vacationists increase this week, a bonfire will be built the early part of the week.

The lake level on Monday stood at 6228.84 with 433 CSF of water leaving the dam gates at Tahoe. Cool weather has been experienced for the past several weeks, the coldest morning to date registering 35 degrees. Frosts have been a regular occurence.

TAHOE REALTY CONTRIBUTES HEAVILY TO SCRAP METAL CAMPAIGN IN LAKE REGION

TAHOE CITY, Aug. 6—The Tahoe Rangers are in active charge of the scrap metal drive now in swing in the Tahoe area. To date a goodly pile has been accumulated, with public spirited ahoe Realty Co. leading in donations. Last week they unoaded some two-ton of metal into the committee's coffers, the lot containing an old concrete mixer and heavy rails which had been stored for years in their warehouses.

Especially successful scrap metal solicitors are Norman R. Mayfield and Otto Rempfer of Lake Forest who have lined up most of the available metal for future collection already. The drive ends around August 11 so the committee urges Tahoe residents not to wait until the last moment to do their bit in this newest emergency drive.

V

Arntzen Comes Out Second In Encounter with Doe

Last week while Patrolman T. M. Arntzen of Tahoe Public Camp was making one of his regular inspections of the old Bear Trap guard station, he became aware of some peculiar noises in the old horse shed. Deciding to investigate, he proceeded to the door of the shed where he was met half way in and half way out by a doe deer. As nature would have it, the weaker force would yield to the stronger, and Arntzen got a worm's eye view of the passing doe. Arntzen is nursing a bruised shoulder.

V

Bishop Porter Performs Nuptial Service at Tahoe

TAHOE CITY, Aug. 6— Bishop Noel Porter of the Episcopal chapel at Tahoe on Wednesday last officiated at the marriage of William Monroe Felse, physical director of the Chico Army Flying School, and Miss Marcella Jane Bracchi of San Jose. Mr. and Mrs. DeWill A. Portal of San Jose served respectively as man and matron of honor. Following the ceremony, a wedding luncheon was served at Tahoe Tavern.

On Sunday, August 9, at 11 a.m. a new 5x8 foot United States flag will be dedicated by Bishop Porter at the outdoor chapel. It is the gift of Mrs H. G. Tallerday of San Francisco Ceremonies fitting for the occasion will be held as it is hoisted to the new 30-foot flag pole which has been erected on the church grounds. Norman R. Mayfield, Tahoe City contractor, is graciously building an attractive Gothic chamber for the housing of the Echo organ amid the trees.

V

Local boys are reminded to turn in their model planes for judging to Constable Harry Johanson. The deadline is set for the last day of August. Judging and awards will be made shortly thereafter.

Tahoe Service Men. .

Sitting as one of the six judges in the now notorious Aroff courtmartial which fills daily papers is Major Arthur P. Crist, partner of Henry F. Droste of the Tahoe Realty Co. The major has been at Yerba Buena for some months and we woul not be surprised to hear soon of a promotion for one of Tahoe's favorite citizens.

Mr. and Mrs. A. B. Johnson of Tahoe Park are enjoying a visit with their son, John Bell Johnson, home on a 10-day furlough. He has just graduated from the naval training school at Corpus Christi, Texas, and upon his return to duty will report in at Seattle. He is a former contractor and builder of the Tahoe region, his dad being in the real estate business.

Mrs. E. C. Borden of Tahoe has received word that her son, F. C Borden, who trained near Sacramento, has been transferred to the north. He is married.

Capt. and Mrs. John Kvistberg of Tahoe Park left Monday for San Francisco where the captain will enter the Marine hospital for a tonsillectomy on Tuesday. They plan to return to the lake within the week for a period of recuperation.

Johnnie Perelli, former golf pro for the Tahoe Tavern golf links, who entered the coast artillery in April last at San Francisco, remains unheard from by members of his family.

V

Tahoe Briefs

The Tahoe Women's Club will meet Thursday at the community center hall with Mrs. Ruth Mayfield presiding. Mrs. Mayfield reports that the proceeds of the recent USO benefit party have reached a total of $126.83 with a small amount still outstanding.

Gus Nelson, engineer of Chambers' Lodge, on Monday made a hazardous trip across the lake from the resort in a small kayak, to return safely before nightfall. Dr. G. Bruno Fuessel is the only other man to so cross the lake and it not advisable to any but the very expert both in the handling of the boat and the peculiarities of navigating the lake er.

Lake Youngster Hostess At Birthday Party in Week

TAHOE CITY, Aug. 6—Little Kay Louise Ganzhorn, daughter of Mr. and Mrs. Robert Ganzhorn of Tahoe City, was hostess at a birthday party last week when she turned four years old. Her guests enjoyed cake and ice cream at the Ganzhorn's King's Lodge restaurant in town and then were taken to the Tavern stables where the little ones rode in the pony cart to their heart's content.

Present were Trudy Anne and Laddie Martinez, Stanley Martin, Jr., Christine Bechdolt, Bette Bee and Roger Ross, Milan and Ted Wakefield of Pasadena and Mary Lou Esposito, a guest at the Lake Chalets. Little Kay received many lovely gifts during the festive day.

V

Jack Malcolm and Henry Rose on Sunday again visited Upper Grouse, Lower Grouse, Rubicon and Shadow Lakes where they secured for themselves the limit of trout. Eastern Brook predominated, with Lower Grouse (or Grouse Lake No. 2, as it also known) the best angling spot.

Miss Margaret Luhrs, who is a frequent hiker into the back country, reports the mountain region pleasantly cool these warm days, with the terrain abloom with flowers. One fishing party reported passing thru a tunnel of snow to a spring at the other side of which wild flowers painted the hillsides with a riot of color.

Charlie Steffens and Bob Wallace were recent visitors to the Five Lakes region where they took out the limit of trout.

On Tuesday last Carl Bechdolt, Jr., his wife, and Mr. and Mrs. Nolan and a Mr. Miller, guests at Lake Chalets Motel, went into the Vellmas where they enjoyed fine fishing, taking mostly Eastern Brook. Elsie Bell Bechdolt, a resident of the Tahoe region for the better part of 22 years, had the thrill of a lifetime when she caught her first trout, an Eastern Brook nearly 10 inches long.

Few large mackinaws are now being caught, due, experienced fishermen say, to the warmer water of the lake which forces big fish down deep where the temperature is cold-

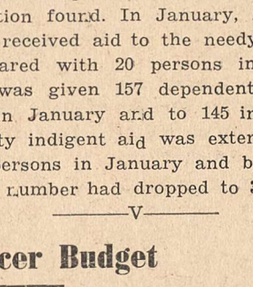
What You Buy With WAR BONDS

Barbed wire used by Uncle Sam's fighting forces is vastly different from that used on American farms. Army and Marine barbed wire is much heavier and the barbs, about three inches in length, are more vicious than ordinary barbed wire.



The Marine Corps pays fifty cents for each twelve yards, or 36 feet of this specially manufactured barbed wire. The Army and Marine Corps needs thousands upon thousands of feet for defensive warfare. Your purchase of War Bonds and Stamps will insure sufficient quantity for their needs. Invest at least ten percent of your wages in War Bonds every pay day.

U. S. Treasury Department

County Aid to Needy Drops During 6 Months

The number of persons receiving aid to the needy in Nevada County dropped from 816 in January to 708 in June and direct aid extended to these needy persons went from $23,173 in January to $22,596 in June, a study of state and local public assistance in California counties, made public this week by California Taxpayers' Association, shows.

Aid to the needy aged in the county was given to 500 persons in January and to 505 persons in June, the association found. In January, 21 persons received aid to the needy blind compared with 20 persons in June. Aid was given 157 dependent children in January and to 145 in June. County indigent aid was extended to 135 persons in January and by June their number had dropped to 38.

—V—

Placer Budget

AUBURN, July 30.— Supervisors of Placer County have placed a 2 cent levy in the 1942-1943 budget for the support of the Placer County Defense Council. Under the plan outlined, the council will supervise all activities undertaken in the past by the individual agencies.

The supervisors also voted to include a 10 cent bridge tax in district No. 1, excluding the cities of Lincoln and Roseville.

Officer Candidates Sought For Petticoat Navy

Navy Auxiliary

This is Dr. Mildred McAfee, president of Wellesley college, Wellesley, Mass., who is being named director of the Women's Naval Auxiliary corps—navy counterpart of the WAAC. Twelve thousand women will take over the jobs of desk sailors who will be released for active sea duty.

Selection of all women in the newly formed Women's Reserve of the United States Naval Reserve will be carried out by mail only, it was announced by Capt. C. R. Arnold, USN (Ret.), director of Naval Officer Procurement for the 12th Naval District. Women interested in securing commissions in the Women's Reserve of the Navy should write to the office of Naval Officer Procurement, 703 Market Street, San Francisco, for application blanks.

At the present time, the Navy is seeking women who will qualify as administrative or technical officers. In each case, age limits range from 21 to 50 inclusive. Both married and single women are eligible, provided they meet certain requirement as to education, physical condition, etc.

Each applicant for a commission should have a college degree, or in lieu of this, have outstanding professional qualifications to make them eligible. All candidates must have had a minimum of two years of mathematics in high school or college. Especially desirable candidates are those who have majored in the physica sciences, and those experienced in radio communications.

Minimum physical requirments are listed as followes: five feet in height; weight 95 pounds; eyes 12-20 each eye, correctable to 20-20; hearing, whispered voice, 15-15 each ear; teeth a minimum of 18, properly located.

For enlisted personnel and specialty rating, high school graduates are eligible. Those with a business school education and business experience are especially urged to apply.

Tahoe Schools

Once again school children have returned to their books, as Tahoe Lake School starts into its fall semester. Mrs. Myrlte Gallinger reports an attendance of only 21 pupils, the lowest opening number in a period of more than ten years. She has no new pupils in her grades.

Mrs. Gallinger also states that school lunches will be served each day to the students at aprice, this month at least, of 10 cents a single day or $1.00 for 20 school days in advance. Mrs. Nora Hevel is preparing the lunches this term.

A definite Red Cross and first aid program is being prepared for the benefit of the school, an outline to be available for an early issue of the Sierra Sun.

Mrs. Lou Siemion of Auburn, superintendent of child welfare, was a visitor at the lake on Thursday last.

Mrs. Gallinger spent the vacation period at University of Nevada summer session.

Mrs. June Dyer, elementary teacher, reported a total of nine pupils with three of them new attendants. They are Marilyn Coldie of Cedar Cres, Joy Stuart of Lake Forest and Robert Hursey of Tahoe Pines. Mrs. Dyer spent the vacation in San Francisco with her husband.

Mrs. Bliss Hinkle, teacher of the high school branch reports also the lowest opening attendance in 10 years with a tota of only 16 pupils, none at present from the Kings Beach area. An old pupil returned this term in the person of Lois Reeves, daughter of Mrs. Barney Morrow. She will complete the year at Tahoe. Also back are Paul, Joe and June White of Kiluah Park who attended school for some time in Redwood City.

Mrs. Hinkle declared that for the first time the Tahoe branch of the Placer Union High School will be prepared to teach Spanish, physics and trigonometry, with special emphasis to be laid this term on these subjecs, as suggested by government bulletins describing the urgent necessity of them to pupils planning to enter government service.

Mrs. Stella Watson is again driving the school bus this term. She spent several days in the bay area last week on vacation.

On Monday Billie Callender and Paul White, accompanied by Mrs. Marie Henry, made their appearance by request at Chambers' Lodge where the youngsters gave a commendable demonstration of the various methods of life saving before a large group of hotel guests assembled on the beach. Dave Chambers complimented them and then took them for speed boat ride on the lake. The boys were members of a class receiving life saving cerificates last summer, which was sponsored by the Tahoe branch of the Red Cross. Due to restricted transportation the class will not be held this year.

—V—

Tahoe Briefs

The congregation of the Tahoe Catholic chapel has increased to such proportion on Sundays now that Patrolman Grover Todd takes charge after services in keeping traffic from becoming hopelessly tangled on the main highway. Motorists are warned not to park their cars with any part protruding onto he highway or they are likely to return and find a traffic violation ticket. It was announced last Sunday that Mass will be held at the local chapel on Friday next, the first Friday of the month. There will be a second collection next Sunday for Negros and Indians.

Bill Ogden of Sacramento and his son, playing on the Tavern golf links, last Sunday earned a place of honor on the Tahoe golfer's roster when the senior Ogden, one of the lowest handicap amaeurs of the Sacramento area, made a hole in one using a No. 3 iron on No. 3 green—a distance of 183 yards, according tc Pete Perelli, who is Taver pro.

ON THE NEWS FRONT

Dehydrated Food Industry Taking Major Role in Allied War Program

The necessity of supplying food for both the U. S. and Allied fighting forces throughout the world, plus the sending of food contracted for Allied nations has brought to the news front the ever-growing importance of dehydrated food.

Then, too, the growing shortage of tin (cans and containers for non-dehydrated foods) plus the increasing need for more cargo space, has added to the increasing use of the product.

Dried, sun-dried, evaporated and dehydrated are the terms most frequently used to describe dried products. These dehydrated foods occupy an average of only one-fourth the space occupied by non-dehydrated products.

During the last war over 8,905,158 pounds of dehydrated food were shipped to the United States army overseas. Potatoes accounted for over six million pounds, while soup shipments were close on to two million pounds.

At that time food dehydration did not prove very successful because of the commercial concerns having very little understanding of the problems involved—one of the most important being that only the best grade of the product must be used.

The reason the United States had such a head start in food dehydration at the outset of the war is that the department of agriculture has been carrying on experiments in that field since 1921.

Up to the present time, slightly more than two million pounds of dehydrated vegetables have been purchased this year for Lend-Lease shipments. Additional large quantities are to be purchased since increased production has taken place. Most of the Lend-Lease purchases for shipment across the ocean have been largely represented in dehydrated dairy and poultry products.

Food products of all kinds, such as eggs, skimmed and whole milk, soups, apples, citrus fruit concentrates, butter (pure butter oil), cheese and meats are being shipped in ever-increasing amounts.

In general, it takes about 10 pounds of fresh vegetables to make one pound of dehydrated; about three dozen eggs to make one pound of dried; four pounds of lean meat to make one pound of the dehydrated product.

Of all the products being dehydrated today, the processing of meat in such a manner has not—as yet—been fully perfected, although an excellent product has already been turned out. Dehydrated steaks and chops are in the not too far future, officials say.

For those canners, and other organizations affected by the shortage of tin and other supplies, the department of agriculture has assembled all the latest data and aid enabling those concerns that wish to enter the dehydration business to do so with a minimum loss of time and money.

Officials have warned that such a business can not be started on a shoestring. At least an output of a half million pounds of dehydrated product yearly is necessary for a successful operation of a plant.

DALE CARNEGIE

Author of "How to Win Friends and Influence People"

THE CONQUEST OF FEAR

Enrico Caruso, the most perfect tenor voice that ever titillated the Golden Horse Shoe in the Metropolitan Opera House, New York, had something that haunted him day and night. He had conquered the world with his voice; himself he could not conquer. And that which conquered him, is a short word. Fear.

From his peasant Italian childhood he inherited fear of the Evil Eye from which he was never able to free himself. He never crossed the ocean without first consulting an astrologer to find if the portents were favorable; he never started a new undertaking on Friday, and he never wore a new suit for the first time on Friday. A strange craze swept over this country—the billiken craze. A billiken was a sort of half-dwarf, humorous monstrosity; Caruso lived in fear of sickness; and when he fell ill, he filled his room with billikens; sometimes, he even kept one under his pillow. So much did he fear the Evil Eye that he would never walk under a ladder. One day, in making a sharp turn to avoid a ladder, he bumped into a window cleaner's bucket and fell sprawling to the sidewalk. A friend twitted him about it.

"If I'd walked under the ladder I might have been killed," he said solemnly.

The powerful, the conquering Cornelius Vanderbilt, who bent men to his will as a cook does pie-dough, had to do a little bending himself. He was the iron man, but he believed in spiritualism, mediums, clairvoyants, consulting them regularly. He was particularly afraid of "evil spirits," which were so real to him that he had each leg of his bed set in a dish filled with salt to keep the spirits from attacking him while he slept.

So, if you have fears, stop to realize that others have had them, too. Probably a fear is haunting you this moment: the fear of what someone is going to say about you; what the boss is going to do; what the neighbors are going to think. These all have to do with the future. You never fear the past, for you know what has happened and generally, it wasn't so bad after all. But the future—Oh! . . .

Fortunately there is a simple way of fighting fear. "There is no defeat except for those who think defeat," said sagacious old Elbert Hubbard of East Aurora.

Say to yourself: "Now look here, exactly what is this I am afraid of? Is it going to kill me? Is it going to make my neighbors pass on the other side of the street to avoid me? Is it going to humiliate me so that I can never again lift up my face?"

If you will analyze your fear, it will lessen. You will know the worst that can happen, and will not be so terrified by it. You will say to yourself, "Why, I can stand that."

"Do the thing you fear to do, and the death of fear is certain," Ralph Waldo Emerson said. I know no better prescription.

Lake Couple's Family Is In Thick of War Effort

TAHOE CITY, July 30.— Mr. and Mrs. Jack Malcolm of Tahoe City are quite proud of their war-minded family, many of whom are employed in government service.

One daughter's husband, Harold Thompson, is special police officer at McClelland Field, another son in law is foreman of the painters at the same field. He is Ora Smittcamp. His son Marvin works under him. A granddaughter, Viola Rogers who attended special school for 11 months was the only girl in her class qualifying after tests and is now employed in a technical capacity on the instruments of bombers. A son, Elmer Johnson drives a government truck and another daughter, Florence Smittcamp, is employed at a government warehouse. Still another son in law Elwyn Friedman works in a ship yard and Malcolm, a former major in the British army, possessor of a number of decorations and battle scars, gave up rank and pension to become an American citizen and to fight for this country. His application for duty is in and he now awaits a call.

You Can Help Make Telephone Service Meet Demands of War

By keeping conversations BRIEF.
By being sure of your number before you call.
By using Long Distance for essential messages ONLY.
By using station-to-station service wherever possible for toll calls.

Your cooperation will aid in this national emergency because the demands of war have loaded our long distance lines and many of our local facilities to capacity and beyond.

Materials required to increase circuits and switchboards cannot be obtained—they must go into the making of weapons and munitions. It is not now possible to build more plant.

Therefore, we all are confronted with the necessity of getting the most out of what we have. In following the above suggestions, you can save yourself time and expense and you will help us keep the way clear for *War Messages That Must Go Through.*

We appreciate your splendid response in helping to meet these problems which involve the safety and security of us all.

Warren Sees Mountains As State's Post-War Succor

SAN FRANCISCO, Aug. 6—"Hundreds of thousands of persons, after the war, can and should find profitable employment in the great undeveloped mountain counties of California, with proper development by private industry under sound state leadership," said Earl Warren, candidate for Governor, today in discussing post-war reconstruction for California.

"As one approach to the problem of post-war unemployment, I propose that we utilize California's great undeveloped natural resources to put men to work at standard wages," declared Warren, a native Californian and long interested in it fullest development.

"California's great mineral and timber belt stretching from San Bernardino county on the south to the Oregon line, offers an opporunity not only during the war in the production of timber and badly needed war materials, but after the war. Gold mining metallic and non-metallic mining, together with wise development of our timber resources, should go a long way to relieve post war unemployment in California.

"While California's present task now is to contribute every ounce of its energy and resources to the winning of the war, if we are to preserve and maintain a decent place for the thousands of Californians who will return from the battle fronts of the world; we must begin now to actively plan for post-war reconstruction. Through non-partisan leadership in Sacramento it can be done.

"When the legislature meets in January, I propose that a joint committee of both houses be created and together with like committees from the State Supervisors Association, the county assessors, those interested in metallic and non-metallic mining, forestry and fish and game, sit down and begin actively to plan for the development of our natural resources in the mountain counties of California.

"The goal of such committee should be post-war jobs for one million persons and this committee should develop ways and means of attracting private capital to invest in and develop these natural resources.

"Sound taxation, construction of highways and access roads, sound financing under sympathetic state leadership should not only take up much of the slack in post-war employment but should build a back-log of business for the great metropolitan cities of California," Warren said.

"Jobs in private industry at standard wages shoud be the answer to California's post-war reconstruction

Major Leitch Issues Rule On Draft List Publishing

SACRAMENTO, July 30— (UP)—Major Kenneth Leitch, executive director of California selective service, this week pointed out that newspapers may publish lists of registrants about to be inducted as soon as the notices of departure are sent to these registrants.

He said the board had received numerous questions concerning the publication of such lists. He pointed out that the national headquarters memorandum I-346 provides that the names of men about to be inducted are releasable to the press as soon as notices of induction are received.

READ THE ADS, TOO

We want no costly and politically-manipulated State Relief Administration or a repition of the relief fiascoes of the recent years."

Scrap Transport Aid Is Asked by Nelson

Donald M. Nelson, WPB chairman, has asked state, local and municipal governments to lend their trucks and manpower to local salvage committees to aid in transporting public collections of scrap material, the regional WPB reports.

"So great is the tonnage to be moved, that all private facilities are now taxed to the utmost," Nelson said. "It is urged, therefore, that trucks owned by the public be used whenever possible to help in transporting this vital war material."

Conservation division officials pointed out that movement of scrap iron and steel to keep the steel furnaces going at full capacity will require over 750,000 freight cars to carry this load this year, and that much of this load must be moved by trucks to rail points for shipment.

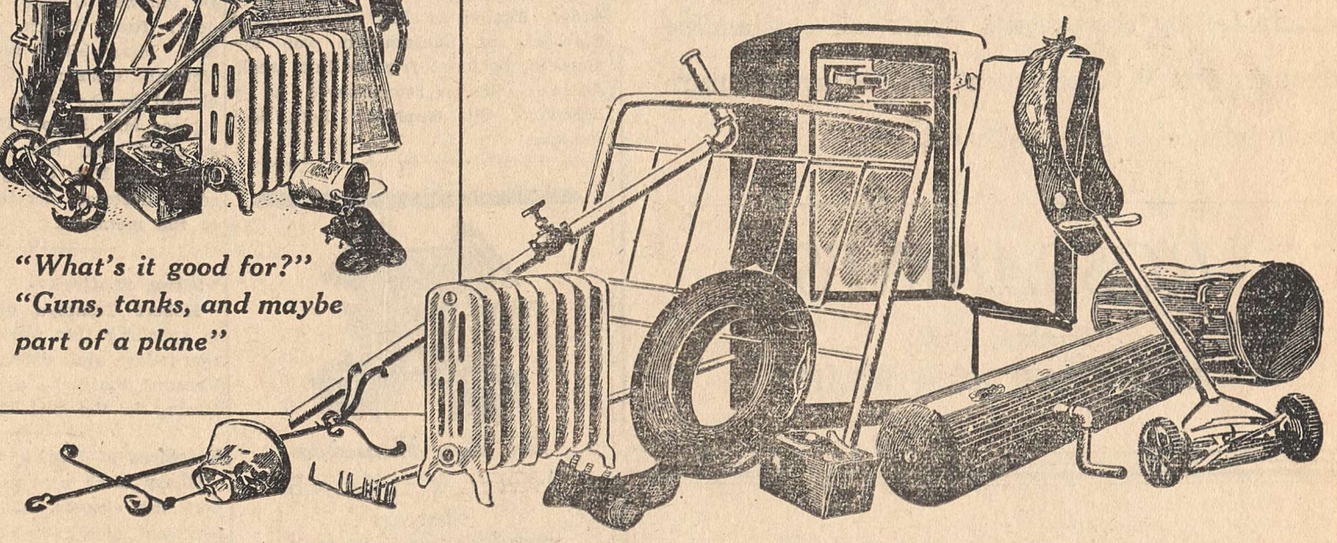
"What's it good for?"
"Guns, tanks, and maybe part of a plane"

JUNK needed for War



In the attics and cellars of homes, in garages, tool sheds, and on farms, is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example. Old radiators, lengths of pipe, refrigerators, garbage pails, broken garden tools...

It may be rusty, old "scrap" to you, but it is actually ***refined*** steel, with most impurities removed—and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

Even in peacetime our Nation relied on scrap to provide about 50% of the raw material for steel. Now production of steel has gone up, ***up,*** **UP,** until today America is turning out as much steel as all the rest of the world combined.

But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; the necessary tanks, guns, and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead, and tin.

America needs your active assistance in rounding up these materials. The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help?

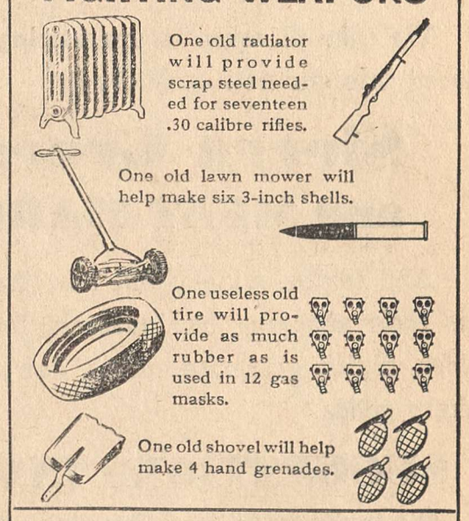
First—collect all your waste material and pile it up.

Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

JUNK MAKES FIGHTING WEAPONS



One old radiator will provide scrap steel needed for seventeen .30 calibre rifles.

One old lawn mower will help make six 3-inch shells.

One useless old tire will provide as much rubber as is used in 12 gas masks.

One old shovel will help make 4 hand grenades.

MATERIALS NEEDED

Scrap iron and steel.
Other metals of all kinds.
Old rubber.
Rags, Manila rope, burlap bags.
Waste Cooking Fats—Strain into a large tin can and when you get a pound or more, sell to your meat dealer.

NEEDED ONLY IN CERTAIN LOCALITIES: Waste paper and tin cans, as announced locally.

NOT NEEDED at this time: Razor blades—glass.
